**AVERITT HOUSTON PORTSIDE®**

- **Location:** Centrally located just minutes from the Port of Houston, only 2 miles from the Barbour's Cut and Bayport container terminals
- **Capacity:** 200,000 square feet
- **Second location** in Houston for LTL and pool distribution support

PORT DRAYAGE

Using our trucks, lifts and chassis, we can provide drayage of full container load (FCL) shipments between the Port of Houston and **any regional destination**, including Averitt transload facilities, third-party locations, inland port facilities, or directly to your dock.

TRANSLOADING & PROCESSING

For inland points, our experts will identify **money-saving solutions** and transloading options via intermodal and through combinations of road and rail options such as trailer on flatcar (TOFC).

At our secure facilities in Houston and across the region, your freight can be transloaded to traditional trailers or **prepared for final delivery** with a selection of value-added services.

WAREHOUSING & STORAGE

If space is an issue, save money and resources by taking advantage of our wide range of storage capabilities. Enjoy secure warehousing across our network of distribution facilities and service centers. **Any length of time. No contract. No problem.**

TRANSPORTATION & DISTRIBUTION

With more than 40 years of inland distribution and supply chain experience, we can **seamlessly move your cargo** from the Port of Houston **throughout North America**.

You'll save on both time and money with award-winning supply chain services that are not prepackaged but are actually **designed to meet your needs**. Have your products on store shelves faster with a DC Bypass strategy or streamline regional deliveries through pool distribution.

Professional, flexible and backed by the strength of The Reliance Network of carriers, **the Port of Houston begins and ends with Averitt PortSide® Services.**
